Paul M. Pak, Senior Project Manager
N Area Project
Department of Energy
Richland Field Office
P.O. Box 550
Richland, WA 99352

Dear Mr. Pak:

This letter is in response to your submittal "045590" dated May 1, 1997. It concerns a notice of construction for the removal of water and sediment from the 107-N, 1310-N and 1314-N facilities. My staff has reviewed the information provided. Based on that review I have determined that the proposed project, if properly constructed and operated, will not cause emissions to exceed the standards of Title 40 Code of Federal Regulations (40 C.F.R.) Part 61, Subpart H. In accordance with 40 C.F.R. 61.08, I hereby grant approval of construction for the project as described.

The application can serve as notice of startup in accordance with 40 CFR 61.09.

If you have any questions regarding this approval, please call me at (206) 553-2963, or Jerry Leitch at (206) 553-7660 for technical matters.

Sincerely,

Anita J. Frankel, Director
Office of Air Quality
